Know Your Church Health

# VITAL SIGNS+

**Vital Signs** = where we are now  
**Vital Signs+** = where we want to go

With **Vital Signs** you will know your numbers.

With **Vital Signs+** find answers to these common questions:

**+ What do our numbers mean?**

**+ How do we improve them?**

Through a six-month cohort learning model, you will be mentored by a seasoned church financial professional. No academic stuff here – just hands-on practical application focused on your specific issues. By learning in real time with other pastors who are “in the trenches”, you’ll have the added benefit of the synergy that’s created in a group learning environment.

Still not sure whether this is for you?

Here are a few benefits of **Vital Signs+**:

### **SAVE TIME**

You could buy lots of books on church financial health and figure it out yourself. You probably don't have the time. And your specific issues may be buried deep in all that content. Vital Signs+ is laser focused on your felt needs.

### **ACCOUNTABILITY**

Let's face it, there's a reason that most self-implemented diets fail within six weeks — lack of accountability. With Vital Signs+, your monthly cohort meeting and regular check in call by your coach provide the gentle encouragement needed to not "let it slide".

### **RESULTS**

Your participation has one purpose — improving your church's financial health. With our hands-on practical coaching model, you will experience tangible results quickly.

### **PRIVATE VIRTUAL COACHING SESSIONS**

Interactive feedback and advice from an experienced church leader.

### **GROUP COACHING CALLS**

Dynamic presentations and group collaboration on relevant topics to enhance your church's financial health.

### **ACCESS TO OUR RESOURCE LIBRARY**

No need to recreate the wheel. Strategies discussed during coaching calls are backed up by templates you can put to immediate use.

## **Mike Stadelmayer**
